

IS 3920 – Individual Project on Business Solutions

Supervisor Meeting Record Book

Department of Interdisciplinary Studies
Faculty of Information Technology
University of Moratuwa
2025

Student Name	Saubhagya K.R.H.M.K.
Student Registration Number	215111T
Project Title	Personalized Learning System for Students with ADHD (Attention Deficit Hyperactivity Disorder)
IDS Supervisor's Details	Name: Ms. M. W. A. M. P. Muthukuda
	Designation: Lecturer
Industry Mentor's Details	Name: Mr. Supuna Warusawithana
	Designation: Software Engineer
	Company: 99x Technology

Meeting Number	1	Date	11/09/2024
Summary of the Meeting			
(with IDS Supervisor)			
- Providing the general idea of the project – The overall concept of the project was explained, including its purpose and the key outcomes that are expected to be achieved. - Discussing the feasibility of the project – A discussion was carried out regarding the practicality of the project, considering the available resources, technical aspects, potential challenges, and the time frame. - Confirming the scope of the project – The boundaries of the project were reviewed and confirmed, ensuring clarity on what is to be included and what falls outside the scope.			
Tasks to be completed before the next meeting			
- Adjust the scope - Discuss the technical feasibility			
Signature of the Supervisor/s	IDS Supervisor	Industry Mentor	

Meeting Number	2	Date	12/09/2024
Summary of the Meeting			
(with Industry Supervisor)			
- Presenting the general project idea – The main concept of the project was outlined, including its objectives and the overall approach to be taken. - Discussing the technical feasibility – A discussion was held on the technical aspects of the project, focusing on available tools, implementation methods, and possible challenges. - Preparing a document on expected functionalities of the system – It was agreed to create a document specifying the key features and functionalities that the system is expected to deliver.			
Tasks to be completed before the next meeting			
- Finalize the technology stack - In depth understanding of functionality			
Signature of the Supervisor/s	IDS Supervisor	Industry Mentor	
		Supund .	

Meeting Number	3	Date	14/09/2024
Summary of the Meeting			
(with IDS Supervisor)			
- Finalizing the project idea – The project idea was finalized after discussion, ensuring clarity on the main objectives and direction. - Making adjustments to the scope – Revisions were made to the project scope to better align with the finalized idea and available resources.			
Tasks to be completed before the next meeting			
- Project report			
Signature of the Supervisor/s	IDS Supervisor	Industry Mentor	

Meeting Number	5	Date	1/10/2024
Summary of the Meeting			
(with IDS Supervisor)			
- Discussing the changes in the project – The modifications made to the project were reviewed and their impact on the overall direction was discussed. - Getting feedback on the functionalities – The proposed system functionalities were presented and feedback was obtained to refine and improve them.			
Tasks to be completed before the next meeting			
- Initial starting of the project - UI design of the system			
Signature of the Supervisor/s	IDS Supervisor	Industry Mentor	

Meeting Number	6	Date	2/10/2024
Summary of the Meeting			
(with Industry Supervisor)			
- Receiving feedback on the UI design – The user interface design was presented and feedback was received to improve its usability and appearance. - Instructions on Git repository and branching – Guidance was provided on setting up the Git repository and following proper branching practices for version control.			
Tasks to be completed before the next meeting			
- Login functionality			
Signature of the Supervisor/s	IDS Supervisor	Industry Mentor	
		Supund .	

Meeting Number	7	Date	2/04/2025
Summary of the Meeting			
(with Industry Supervisor)			
- Receiving feedback on the login functionality – The implementation of the login functionality was reviewed, and feedback was provided to improve its efficiency and reliability. - Discussing different possible approaches for proceeding – Various approaches for moving forward with the project were discussed, considering their advantages, limitations, and suitability. - Reviewing code quality – The quality of the code was assessed, with attention given to readability, maintainability, and adherence to best practices.			
Tasks to be completed before the next meeting			
- Better structuring of the code - Setting up database			
Signature of the Supervisor/s	IDS Supervisor	Industry Mentor	
			

Meeting Number	8	Date	5/7/2025
Summary of the Meeting			
(with Industry Supervisor)			
- Receiving feedback on the completed functionalities – The functionalities that have been implemented so far were reviewed, and feedback was provided to ensure they meet the expected requirements. - Going through the code – A detailed review of the code was conducted to verify correctness, structure, and adherence to best practices.			
Tasks to be completed before the next meeting			
-Adjust the code based on feedback			
Signature of the Supervisor/s	IDS Supervisor	Industry Mentor	
		Supund .	

Meeting Number	9	Date	14/7/2025
Summary of the Meeting			
(With Industry Supervisor)			
- Discussing suitable libraries and approaches for the processing part – Different libraries and methods were evaluated to determine the most effective approach for handling the project's processing requirements. - Introducing several pages for user experience – Multiple pages were proposed and reviewed to enhance the overall user experience and navigation within the system.			
Tasks to be completed before the next meeting			
- Adjusting the code structuring of the backend			
Signature of the Supervisor/s	IDS Supervisor	Industry Mentor	
		Supund .	

Meeting Number	10	Date	23/10/2025
Summary of the Meeting			
(with IDS Supervisor)			
- Further discussion on Python libraries – A more in-depth discussion was held on the Python libraries to be used, focusing on their suitability and efficiency for the project requirements. - Considering file processing approaches – Various methods for handling file processing were considered, evaluating their feasibility and effectiveness for the project.			
Tasks to be completed before the next meeting			
- File processing			
Signature of the Supervisor/s	IDS Supervisor	Industry Mentor
